## SUMMARY

Results-driven and highly skilled Full Stack Web Developer with extensive experience in designing, developing, and maintaining web applications across both front-end and back-end technologies. Proficient in modern frameworks such as React, Next.js, and React Native for building interactive user interfaces, along with strong expertise in server-side development using Node.js, Express, Nest.js, and PHP. Adept at database management with MySQL, PostgreSQL, and MongoDB, as well as API development and cloud-based solutions. Experienced in developing scalable, high-performance applications with a keen focus on security, accessibility, and responsive design. Passionate about leveraging the latest web technologies to create seamless, user-centric digital experiences. Skilled in working collaboratively with cross-functional teams, implementing DevOps practices, and maintaining software quality through efficient debugging and troubleshooting. Dedicated to continuous learning and staying up-to-date with industry trends to deliver innovative and efficient software solutions.

## SKILLS

**Front-End Development:** HTML, CSS, JavaScript, TypeScript, React, Next.js, React Native, Bootstrap, Tailwind CSS

**Back-End Development:** Node.js, TypeScript, Express.js, Nest.js

**Database Management:** MySQL, PostgreSQL, MongoDB, Prisma, TypeORM, Sequelize

**API Development:** RESTful APIs, Postman

**Version Control & DevOps:** Git, GitHub, CI/CD, Docker, Kubernetes

**Cloud & Hosting:** Heroku, Netlify, Vercel

**CRM & CMS:** WordPress, HubSpot

**Software Development:** Microservices, API Design, Event-Driven Architecture, Message Queues (Redis, NATS)

**Testing & Debugging:** Jest

**Performance Optimization:** Caching, Load Balancing, Code Minification

**Other Tools & Technologies:** WebSockets, OAuth, JWT Authentication, Microservices, Agile & Scrum, Atlassian

## EXPERIENCE

**Web Developer | August 2024 – Present**

**Duralux Architectural Canopies – Little Ferry, NJ**

- Engineered custom PHP-HubSpot integrations, automating price fetching and CRM workflows, reducing manual data entry by 90%.
- Designed and developed 10+ high-performance websites and landing pages using WordPress, Tailwind CSS, Elementor, and PHP, enhancing online engagement and lead conversions.
- Implemented and customized WooCommerce, improving e-commerce checkout speed by 40% and reducing cart abandonment rates.
- Integrated Three.js for 3D visualizations, increasing product interactivity by 60%, enhancing user engagement.
- Optimized website performance and reduced load time by 35%, improving overall user experience and SEO rankings.

**Web Developer | August 2024 – Present**

**Tudelü – Little Ferry, NJ**

- Increased Lighthouse performance score from 43 to 75-92, reducing page load times by 2.5 seconds through code optimization, caching strategies, and lazy loading techniques.
- Developed and maintained 7+ dynamic landing pages using HubSpot and Bootstrap, resulting in a 30% increase in lead conversions.
- Optimized image loading and asset delivery, reducing bandwidth usage by 50% and improving website accessibility.
- Collaborated with cross-functional teams, ensuring project delivery 20% ahead of schedule while maintaining 100% compliance with accessibility standards.

**Full Stack Developer | November 2023 – Present**

**Freelance/Self-Employed – Remote**

- Developed and deployed 15+ web applications using React, Next.js, and modern UI frameworks, improving user engagement by 35%.
- Engineered 3+ cross-platform mobile applications using React Native (Expo & RN-cli), including an eCommerce platform, food delivery app (UberEats-style), and a task management app.

- Enhanced backend performance by 15%, optimizing database queries and implementing scalable API architectures using NestJS and Node.js.
- Designed and integrated secure authentication and authorization systems (TypeScript, NestJS, JWT), reducing security vulnerabilities by 50%.
- Successfully implemented Bitcoin payment integration, streamlining eCommerce checkout processes for multiple clients.

**Full-Stack Web Developer | November 2021 – Present**  
**Development Real Time Strategy (DRTS) – Remote**

- Led the development of 5+ enterprise-level applications, increasing system efficiency by 25% through optimized backend logic and database indexing.
- Designed and implemented modular, scalable architectures using ReactJS, Next.js, and TypeScript, reducing technical debt by 40%.
- Optimized server-side rendering (SSR) and static site generation (SSG) for Next.js applications, improving SEO performance by 60%.
- Delivered 100% on-time project completion through agile methodologies, effectively managing development cycles and milestones.
- Developed and maintained APIs handling 500K+ monthly requests, ensuring high availability and uptime of 99.9%.

**Junior Web Developer | February 2020 – October 2020**  
**Xaplu – Dominican Republic**

- Developed 8+ responsive web interfaces using HTML, CSS, JavaScript, and Bootstrap, reducing bounce rates by 30%.
- Customized and optimized WordPress themes and plugins, increasing site load speed by 40% and boosting SEO rankings.
- Applied SEO best practices, leading to a 20% increase in organic traffic.
- Collaborated with UI/UX designers to improve user experience (UX), increasing average session duration by 25%.
- Successfully refactored legacy code, improving website maintainability and reducing technical issues by 35%.

## **CERTIFICATIONS & LICENSES**

**Nest.Js + Microservice – DevTalles | 2025 – Present**

NATS, Webhooks, CI/CD, Git submodules, Gateways, Docker, Kubernetes, GCloud, PostgreSQL, Mongo, SQLite

**Master Next.Js – Udemy | 2023 – 2024**

SSR, SSG, CSR, ISR, Middlewares, Dynamic Routes, Next API, Next Auth, Material UI, Deploy, Cookies

**Master Nest.Js – Udemy | 2023 – 2024**

REST, TypeScript, Websockets, Authentication, Authorization, Docker, Mongo, Postgres, TypeOrm

**Master React – Udemy | 2023 – 2024**

React hooks, state management, performance optimization, MernStack

**TypeScript – Udemy | 2023 – 2023**

**Master Node.Js – Udemy | 2020 – 2021**

Rest, Deploy, Heroku, Mongo, Git, GitHub, Sockets, Files, JWT

**Master JavaScript – Udemy | 2019 – 2020**

JavaScript, jQuery, JSON, TypeScript, Angular, Node, MEAN

**Web Design – Udemy | 2018 – 2019**

## **EDUCATION**

**Bachelor's degree in Computer Engineering | January 2017 – Current**

Universidad Tecnológica de Santiago (UTESA) - Dominican Republic
