Angel Almonte

Lodi, NJ | +1 (551) 362-7203 | Angelrepublic24@gmail.com | LinkedIn | Portfolio | GitHub

Innovative Full-Stack Developer with 4+ years of technical experience in engineering and optimizing web and mobile applications, front-end development, and back-end development with a strong command of React, Next.js, Node.js, Nest.js and Express.js. Possess a strong track record in building scalable, high-performance applications and architecting RESTful APIs. Highly skilled in delivering superior user experiences through innovative problem-solving and cross-functional collaboration. Adept at enhancing system performance and scalability, contributing to significant project successes and company growth.

CORE COMPETENCIES

- Full Stack Development
- Agile Development Methodologies
- RESTful API Development
- Cross-platform App Development
- Performance Optimization
- Responsive Web Design
- Web Accessibility Standards
- Problem-solving and Debugging
- Scalable Application Architecture
- UI/UX Design and Implementation
- Cross-functional Team Collaboration
- Database Management & Version Control

PROFESSIONAL EXPERIENCE

Duralux Architectural Canopies   **Little Ferry, NJ**
Web Developer   August 2024 – Present
- Solve complex challenges by designing and implementing creative solutions, enhancing functionality, and optimizing existing systems for improved performance.
- Build and maintain responsive websites and landing pages using WordPress, Tailwind CSS, Elementor, and PHP, developing custom solutions from scratch to meet specific client needs.
- Implement and customize WooCommerce for seamless e-commerce experiences, integrating dynamic pricing and product management.
- Develop custom PHP integrations to fetch prices from HubSpot, dynamically updating pricing on WordPress websites, and automating the creation of contacts and deals in HubSpot directly from WordPress.
- Transform and optimize 3D images using Three.js, creating dynamic and interactive user experiences.
- Collaborate closely with cross-functional teams to deliver high-quality web solutions that align with business goals and user needs.
- Continuously research and implement innovative features, maintaining best practices in web development and design.

Tudelü   **Little Ferry, NJ**
Web Developer   August 2024 – Present
- Solve complex challenges by designing and implementing creative solutions, enhancing functionality, and optimizing existing systems for improved performance...
- Build and maintain responsive websites and landing pages using **HubSpot**, and modern front-end frameworks such as **Bootstrap**.
- Collaborate closely with cross-functional teams to deliver high-quality web solutions that align with business goals and user needs.
- Continuously research and implement innovative features, maintaining best practices in web development and design.

Freelance/Self-Employed   **Remote**
Full Stack Developer   November 2023 – Present
- Engineer and optimize web applications with React, ensuring superior performance and enhanced user engagement.
- Develop cross-platform mobile applications with **React Native** (Expo and RN-cli), including a ToDo app, an **eCommerce platform**, and a food ordering and delivery app similar to UberEats.
- Build and implement **eCommerce solutions** with robust authentication and authorization systems using **TypeScript**, **NestJS**, and **JWT** (JSON Web Tokens), ensuring secure and efficient user management.
- Enhanced system performance and scalability by 15% through the development of efficient server-side apps using Node.js and Nest.
- Create and deploy dynamic, **responsive websites** using **Next.js**, integrating modern frameworks and libraries to solve complex technical challenges...

Development Real Time Strategy (DRTS)   **Remote**
Full-Stack Web Developer   November 2021 – Present
- Transformed design blueprints into a robust and scalable codebase using HTML, CSS, and JavaScript, ensuring adherence to project specifications and delivering high-quality outputs.
- Innovated and implemented new concepts by analyzing industry trends, leading to the development of cutting-edge applications, features, and products.
- Architected and developed dynamic, high-performance single-page applications using MongoDB, ReactJS, Node.js, and Express, optimizing user experience (UX) and site performance through MVC (Model-View-Controller) architecture.
- Designed and built scalable, modular applications leveraging NestJS, Next.js, and TypeScript, ensuring maintainability, reusability, and performance at scale.
- Collaborated seamlessly with a cross-functional team of six to integrate design concepts, aligning front-end (React, Next.js) and back-end (Node.js, NestJS, Express) functionalities for a cohesive and optimized user experience.
- Consistently exceeded project milestones through effective timeline management and superior work delivery, significantly contributing to project success.

Xaplu   **Dominican Republic**
Junior Web Developer   February 2020 – October 2020
- Kickstarted my career in web development, building responsive user interfaces with **HTML, CSS, JavaScript, and Bootstrap**, improving UX and engagement.
- Developed and customized **WordPress themes and plugins**, gaining hands-on experience in **PHP and MySQL**.
- Optimized website performance and **implemented SEO best practices**, enhancing site speed and visibility.
- Refactored and improved existing code, applying **modern front-end development practices** for better maintainability.
- Collaborated with designers and back-end developers, strengthening teamwork and problem-solving skills.

EDUCATION

Universidad Tecnológica de Santiago (UTESA)   **Dominican Republic**
Bachelor's degree in Computer Engineering   January 2017 – No Complete

CERTIFICATIONS & LICENSES

Nest.Js + Micro-service	2025 – Present
Master Next.Js – Udemy	2023 – 2024
Master Nest.Js – Udemy	2023 – 2024
Master React – Udemy	2023 – 2024
TypeScript – Ud**emy**	2023 – 2023
Master NodeJs – Udemy	2020 – 2021
Master JavaScript – Udemy	2019 – 2020
Web Design – Udemy	2018 – 2019

TECHNICAL EXPERIENCE

Front-end Development: React Native, HTML, CSS, JavaScript, Typescript, jQuery, React, Next.js, Bootstrap, Tailwind CSS
Back-end Development: Node.js, Express.js, NestJs
Databases: MongoDB, PostgreSQL, TypeORM
Version Control: Git, GitHub
Design and Architecture: MVC, Creative design, Principles SOLID
APIs: RESTful APIs
