Angel Almonte

Lodi, NJ | +1 (551) 362-7203 | AngelRepublic24@gmail.com | LinkedIn | Portfolio | GitHub

Innovative Full-Stack Developer with 4+ years of technical experience in engineering and optimizing web and mobile applications, front-end development, and back-end development with a strong command of React, Next.js, Node.js, Nest.js and Express.js. Possess a strong track record in building scalable, high-performance applications and architecting RESTful APIs. Highly skilled in delivering superior user experiences through innovative problem-solving and cross-functional collaboration. Adept at enhancing system performance and scalability, contributing to significant project successes and company growth.

CORE COMPETENCIES

- Full Stack Development
- Agile Development Methodologies
- RESTful API Development
- Cross-platform App Development
- Performance Optimization
- Responsive Web Design
- Web Accessibility Standards
- Problem-solving and Debugging
- Scalable Application Architecture
- UI/UX Design and Implementation
- Cross-functional Team Collaboration
- Database Management & Version Control

PROFESSIONAL EXPERIENCE

Tudelü   **Little Ferry, NJ**
Web Developer   August 2024 – Present
- Solve complex challenges by designing and implementing creative solutions, enhancing functionality, and optimizing existing systems for improved performance...
- Build and maintain responsive websites and landing pages using **WordPress**, **HubSpot**, and modern front-end frameworks such as **Tailwind CSS** and **Bootstrap**.
- Develop and transform 3D images using **Three.js** to create dynamic and interactive user experiences.
- Collaborate closely with cross-functional teams to deliver high-quality web solutions that align with business goals and user needs.
- Continuously research and implement innovative features, maintaining best practices in web development and design.

Freelance/Self-Employed   **Remote**
Full Stack Developer   November 2023 – Present
- Engineer and optimize web applications with React, ensuring superior performance and enhanced user engagement.
- Develop cross-platform mobile applications with **React Native** (Expo and RN-cli), including a ToDo app, an **eCommerce platform**, and a food ordering and delivery app similar to UberEats.
- Build and implement **eCommerce solutions** with robust authentication and authorization systems using **TypeScript**, **NestJS**, and **JWT** (JSON Web Tokens), ensuring secure and efficient user management.
- Enhanced system performance and scalability by 15% through the development of efficient server-side apps using Node.js and Nest.
- Create and deploy dynamic, **responsive websites** using **Next.js**, integrating modern frameworks and libraries to solve complex technical challenges..

Development Real Time Strategy (DRTS)   **Dominican Republic**
Web Developer   November 2021 – Present
- Converted design blueprints into robust codebase using HTML, CSS, and JavaScript, ensuring adherence to project specifications and delivering high-quality outputs/deliverables.
- Pioneered innovative concepts by monitoring industry trends, leading to the creation of new programs, products, and features.
- Engineered dynamic single-page web applications using MongoDB, ReactJS, Node.js, and Express, optimizing user experience (UX) and site performance with MVC (Model View Controller) architecture.
- Collaborated seamlessly with a cross-functional team of 6 to integrate design concepts, ensuring cohesive front-end (React) and back-end (Node.js, Express) functionality.
- Exceeded project milestones through timeline management and superior work delivery, significantly contributing to project success.

Xaplu   **Dominican Republic**
Junior Web Developer   February 2020 – October 2020
- Optimized server functionality, enhancing the speed and reliability of servers, server-side applications, and databases.
- Revitalized user interfaces using HTML, CSS, JavaScript, and Bootstrap, accelerating responsive design and elevating user experience to drive heightened engagement.
- Innovated codebase through comprehensive analysis of existing code and industry trends, leading to strategic enhancements and improved functionality.
- Drove company advancement by identifying and executing improvements, which significantly enhanced product competitiveness.

EDUCATION

Universidad Tecnológica de Santiago (UTESA)   **Dominican Republic**
Bachelor's degree in Computer Engineering   January 2017 – No Complete

CERTIFICATIONS & LICENSES

Master Next.Js – Udemy	2023 – 2024
Master Nest.Js – Udemy	2023 – 2024
Master React – Udemy	2023 – 2024
Master NodeJs – Udemy	2020 – 2021
Master JavaScript – Udemy	2019 – 2020
Web Design – Udemy	2018 – 2019

TECHNICAL EXPERIENCE

Front-end Development: React Native, HTML, CSS, JavaScript, Typescript, jQuery, React, Next.js, Bootstrap, Tailwind CSS
Back-end Development: Node.js, Express.js, NestJs
Databases: MongoDB, PostgreSQL
Version Control: Git, GitHub
Design and Architecture: MVC, Creative design, Principles SOLID
APIs: RESTful APIs
